DETAILED ACTION

Allowable Subject Matter

1. Claims 1-4,6, and 11-23 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 15, for example, which include, a focusing device having a substrate, a buffer layer and core layer disposed on the substrate and a plurality of holes formed in the layers such that holes are substantially perpendicular to the substrate and holes introduce a graded refractive index profile.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
